adea band

□ Band-sohvasarja on ollut jo vuosikymmenen ajan Adean mallistossa. Nyt muotoilija ja sisustusarkkitehti Petra Lassenius on suunnitellut sarjaan uusia elementtejä, joissa on sirommat käsinojat ja uusi jalkavaihtoehto.

Bandin jalkavaihtoehtoina ovat pyöreä teräsputki harjattuna ja uutuutena metallijalka, jota saa viidessä eri värissä. Irrotettava kangasverhoilu on käyttäjäystävällinen. Band-modulisohvassa on kaksi syvyyttä, 95cm ja 120 cm.

□ Soffserien Band har redan varit en del av Adeas kollektion i över ett årtionde. Nu har designern och inredningsarkitekten Petra Lassenius utformat nya element för serien med smäckrare armstöd och ett nytt benalternativ.

Benen till Band finns i antingen runt, borstat stålrör eller, som nyhet, i metall. Metallbenen finns att få i fem olika färger. Den avtagbara tygklädseln är smart och användarvänlig. Modulsoffan Band finns i två djup, 95 cm och 120 cm.

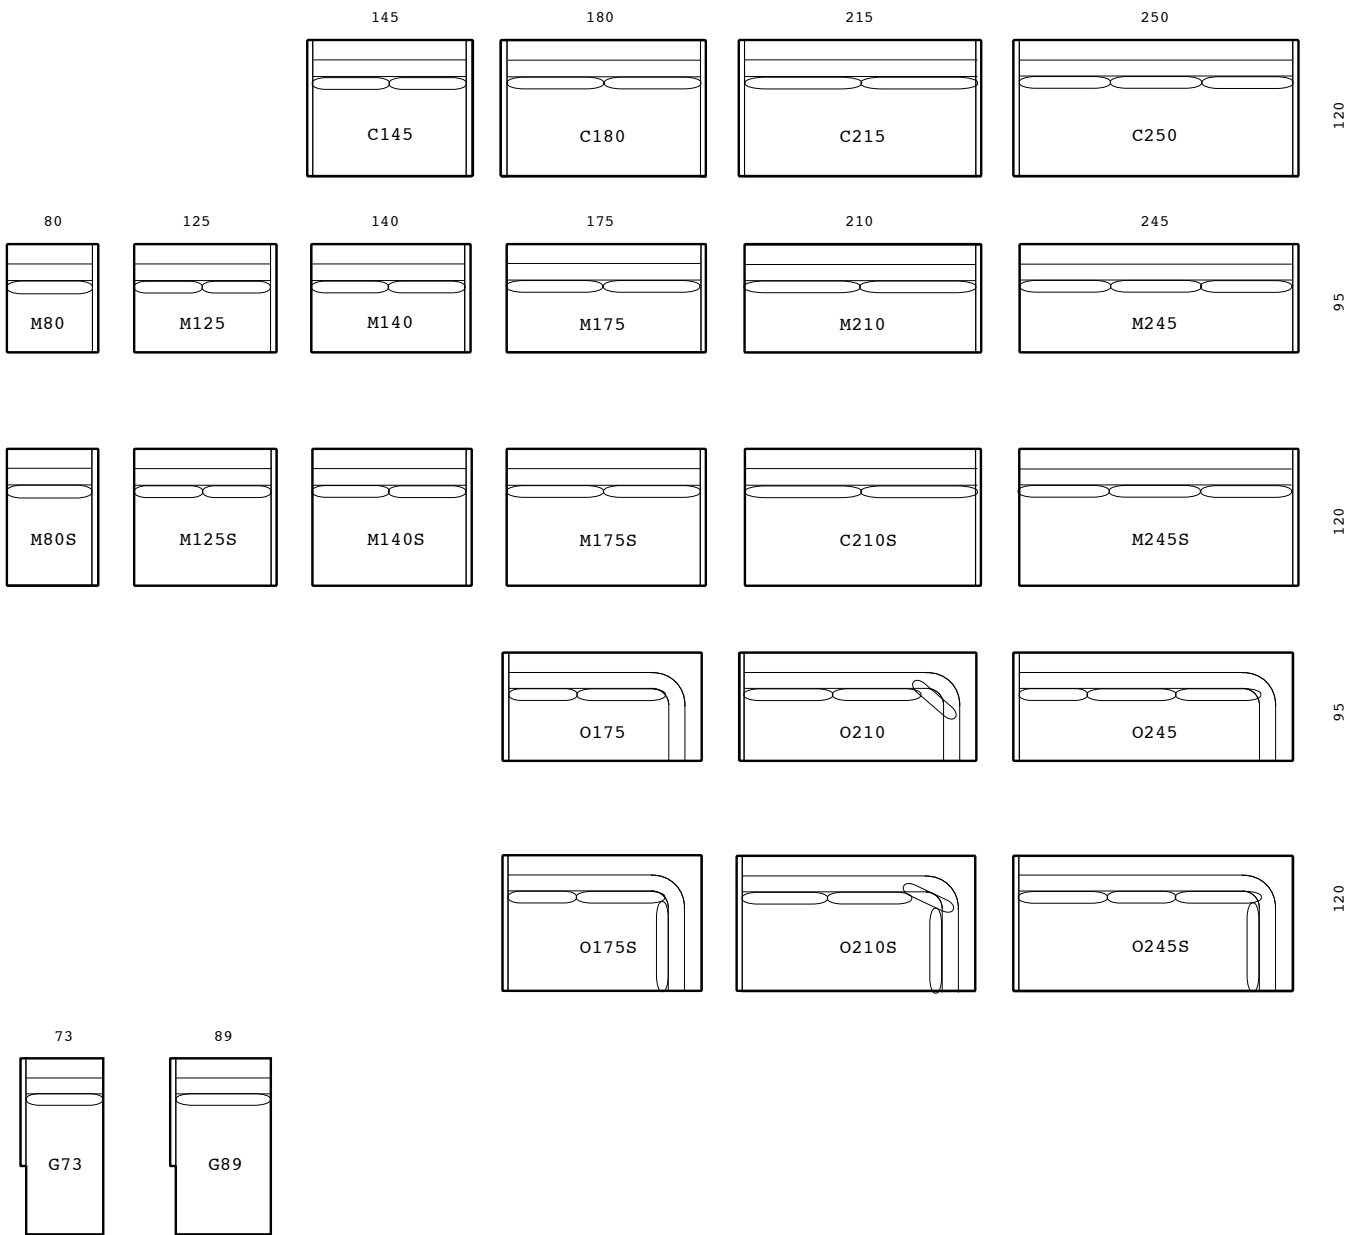

□ The Band modular sofa series has already been part of the Adea Collection for a decade. Now the designer, Petra Lassenius, has complemented the series with new elements: elegant armrests and a new leg alternative.

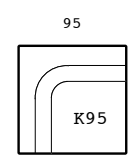

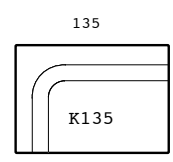

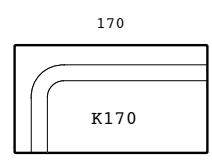

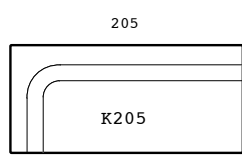

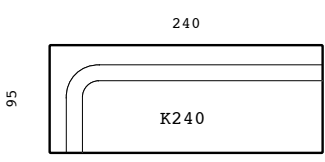

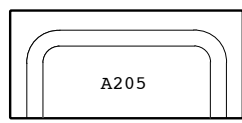

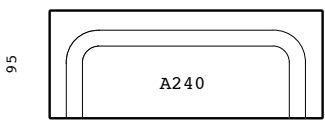

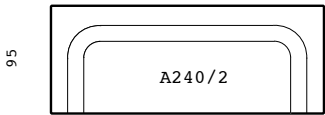

In addition to a round brushed steel tube leg, Band is now available with a new metal leg in five different colours. The removable upholstery is user-friendly. The depth alternatives are 95 cm and 120 cm.

Design: **Petra Lassenius**
